The reservoir will hold about 1 million gals.

9. Estimated cost of works.....\$25,000.00
10. Estimated time required to construct works.....30 days
11. Remarks. The principal source of water to be used is the old White and Shiloh shaft. This shaft was mined out and abandoned as a mine and allowed to fill with water more than 20 years ago. We are advised that the water contains too much arsenic to be of value other than for our purposes. The spring will make approximately 35 G.P.M. and is considered as secondary mining source and domestic use.
